DAIRY BREEDS SPECIAL REGULATIONS

Subject to The Royal National Agricultural and Industrial Association of Queensland Act, 1971, and to the Rules, By-Laws and Regulations of the Association, the following Special Regulations shall apply to Dairy Breeds:

REGISTRATION OF ANIMALS

1. All cattle entered must be registered in the name of the Exhibitor as owner, in a Herd Book of the respective breed recognised by the Association for that breed in accordance with the Rules of the Herd Book Society provided that an animal shall be deemed to be registered if the Exhibitor furnishes proof that at the time of entry:-
 - (a) In the case of an animal of sufficient age to be registered, all necessary documents to procure registration in his name have been lodged with the authority controlling the Herd Book and the delay in registration is in no way due to his default; or
 - (b) In the case of an animal not eligible for registration by reason of age that it is the progeny of registered parents and all necessary steps required to the date of entry have been taken to enable its registration in his name upon its attaining the required age.
 - (c) Any animal owned by a partnership, or group of persons, may be entered in the name of the joint owners or, with the written consent of the others, in the name of any one, or in joint names of two or more of the co-owners.
 - (d) All dairy cattle entered in RNA classes must conform to the Royal Show showing policy of each individual Breed Society. Any animal not meeting Breed Society showing policies will be withdrawn. All Dairy Cattle entries will be submitted to their respective Breed Societies for approval against their Registration database.
 - (e) Wild card entry - \$200 per entry NON REFUNDABLE, plus normal class entry fees – restricted to those who have already entered in their respective breed at the current show. This allows an exhibitor to bring an extra exhibit (not previously nominated) in any class. All necessary paperwork must accompany the animal – the name and particulars of the animal would not appear in the catalogue of entries.

NOMINATION OF ANIMALS

2. Each Exhibitor must complete an Association's entry form giving all particulars required on the form. The responsibility for the accuracy of the description and pedigree and for the eligibility of each animal entered rests solely with the exhibitor who must, when animals arrive on the Showgrounds, be in a position to produce to the Breed Inspectors, and if necessary, Council Stewards, documents relating to the registration of each exhibit or photocopies thereof. Tattoos must be legible or the animal will be rejected from competition.

All cattle entered for competition must conform to the rules and regulations of their respective Breed Society.

If an exhibitor does not advise in writing the number of head by the date requested, the Council Stewards may at their discretion refuse to allow the exhibitor's animals to come upon or to remain on the Showgrounds. Such refusal will not entitle the exhibitor to a refund of entry fees paid.

NUMBER OF ENTRIES PER CLASS

3. There will be no restrictions in the number of entries in any class except as hereunder. In classes under 18 months, an exhibitor may enter as many animals as he wishes but no more than two per class may be brought onto the Showgrounds or exhibited.

RATIONALISATION OF CLASS NUMBERS

4. If after the closing date of entries, the total nominations are in excess of the number of cattle able to be accommodated, the Association reserves the right to reduce the number of animals entered. In such cases, a refund of entry fees paid will be made to exhibitors.

REALLOCATION OF ANIMAL SPACE

5. The Dairy Cattle Committee reserves the right to reallocate space previously allocated to any exhibitor upon the arrival of their exhibits on the Showgrounds if the numbers indicated by them do not arrive.

TRANSFER OF ANIMALS

6. The entry of any cow entered as dry shall be transferred to the correct in milk class and vice versa. The Stewards must be notified as early as possible to enable them to have the transfer effected.

AGE AND SHOWING OF ANIMALS

7. The age of all cattle shall be the actual age as at the 31 May prior to judging day.
8. Any animal which in the opinion of the Council Stewards is not in a fit state, or any way not eligible to be exhibited, may be rejected by them and debarred from competing in the class or classes for which it is entered. Any animal rejected must be removed from the Showgrounds as soon as the exhibitor is notified.
9. The exhibitor of any cow over 2 1/2 years of age which is not in milk shall supply proof or furnish a veterinary certificate that such exhibit is either in calf or has bred during the two years prior to the Show.
10. An animal which has been lactating for 240 days or fewer on judging day shall compete in a milk class. An animal which has been lactating for more than 240 days may be shown in an in milk or a dry class at the option of the exhibitor, which must be exercised by written notice to the Council Steward for the breed 24 hours before judging is due to commence.
11. An animal shall not be penalized for accidental injury which in the opinion of the Judge does not affect its capacity for breeding or production.
12. In any class in which production is taken into account, cows will not be eligible for a prize if the fat content of the lactation as assessed by the recording body, averages less than 3.3% mass/volume or if protein averages less than 3% true protein mass/volume.
13. In any class in which production records are required they must be from a recorder service herd. In a 305 day lactation there must have been at least 5 tests evenly spaced over the entire lactation with 2 samplings in each 24 hour test.
14. In a special or group class, no animal can compete unless it is entered, paraded and shown in one of the general classes. Provided that the Council Stewards may in special circumstances related to the time of a cow calving, permit her to be shown in a special or group class although she has not been shown in one of the general classes.
15. The same animal cannot be exhibited in more than one group in any group class.

This form must be countersigned by the exhibitor. Failure to comply with this rule will result in the forfeiture of all prize money.

INSPECTION OF ANIMALS & VETERINARY TREATMENT

19. The Association shall ask each Herd Book Society to appoint an Inspector or Inspectors to examine exhibits in all Dairy Classes for exhibition and for sale. Breed inspectors must be independent from showing and must not be exhibiting at the Show or a RNA Steward. Inspectors shall submit a written report to the Council Stewards giving details of any animals which bear tattoos which are not consistent with the details printed in the Show Catalogue or which they consider to be below a standard appropriate to a Royal Show. Inspectors shall furnish to the Superintendent's Office two copies of their completed reports by 12.00noon on the Sunday of Show. Any animal which is then rejected by the Council Stewards shall not be exhibited or offered for sale by auction and may be removed from the Showgrounds or segregated. Inspectors shall report to the Council Stewards any improper interference with an exhibit's natural characteristics which may affect the exhibit being shown on its merits.
20. If, in the opinion of a Council Steward, an exhibit requires veterinary treatment, and if the exhibitor cannot be contacted immediately, the Council Steward may instruct a Veterinary Surgeon to treat such exhibit and the costs of such Veterinary Surgeon shall be paid by the exhibitor to the Association. The Association shall not be in any way liable to an exhibitor for any damage to or injury to such exhibit.
21. No Prohibited Substance shall be administered to any animal exhibit except with the permission of the Council Stewards, or under the direction of the Association's Veterinary Surgeon who shall advise the Council Stewards if, in his opinion, such Prohibited Substance has or is likely to have any effect upon the animal which would be material to its chance of being awarded a prize. In such case, a Council Steward may, in his absolute discretion, debar the animal from competing, and may otherwise deal with the exhibit under the Association's rules and regulations.
22. An exhibitor shall not inject, pump or glue, using any substance or thing or otherwise interfere with an udder or teat direction of an exhibit.
23. All milk will be sampled at the milk room and any illegal substances detected will incur appropriate heavy penalties on any offending exhibitor.
24. The Council Steward may at any time direct the Association's Veterinary Surgeons to take a sample or skin scraping of blood, saliva, urine, discharge, exudation or any other sample from an exhibit for testing.

If for any reason, any animal has had treatment prior to entering the RNA Showgrounds this must be notified with a Statutory Declaration lodged with the Dairy Superintendent.

26. Cattle not thoroughly tractable will not be admitted to the Showgrounds. All other stock must have halters securely attached and must be in the charge of the exhibitor or his employee.
